

Ecological Path of Noidant-le-Rocheux

This path, which is in communal forest of Noidant-le-Rocheux, was carried out by the Center of Initiation to Nature and association "the Mountain", thanks to the financial support of the Regional Delegation to Architecture and the Environment and the Departmental Management of Youth and the Sports.

The technical part was carried out by the National office of the Forests.

The goal of this path is caused to you to discover the priceless natural inheritance which so close and yet if is ignored, with better including it and apprehending the richness and complexity of it.
