- The **Voie Bleue** is an improvement of the « Syndicat Mixte d'Aménagement Touristique des Lacs et du Pays de Langres », realized in 2011 in order to facilitate and secure the access of the « Langrois » to the Liez's Lake. The itinerary takes the route of the GR 7® which was completely readjusted for a family public.
- The connection between Peigney and the Liez was realized by the municipality and the Mixed Labor union of Tourist development of Lakes and the Country of Langres in the same purpose of reassurance of the access to the lake for inhabitants of the village.
